

## 663182 Sizzix® Thinlits™ Die Set - Card, Gift Card Slider by Lynda Kanase

1. Die-cut a front and a slider out of desired materials using inserts of your choice. Die-cut a plain back.

2. Apply adhesive to the back side of the front piece along the sides and the bottom. Apply adhesive to the front of the slider, along the bottom tab.

3. Adhere the bottom of the slider to the back side of the front inner panel.

4. Before adhering the back, fold the sliding portion of the front so that it resembles the folds seen in step 5, and then adhere the back to the front.

5. Insert a gift card from the top, behind the slider. When the slider is pulled, the gift card or sentiment is revealed.
