

660358 Sizzix® Bigz™ XL Die - Lantern w/Nautical Embellishments by Sharyn Sowell

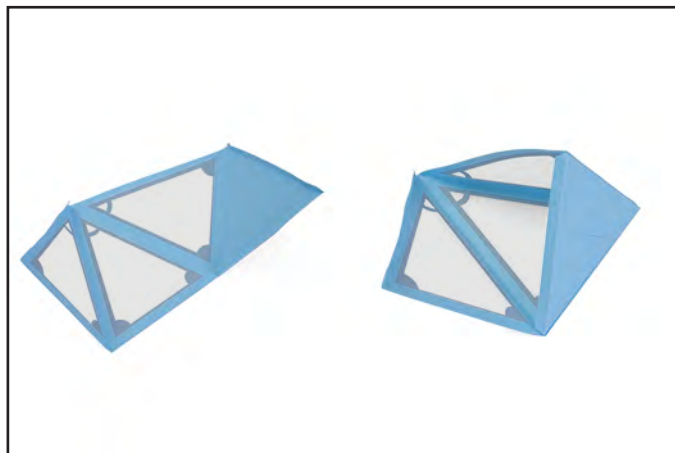

1. Die-cut Lantern body, top and Embellishments from cardstock. Die-cut Panes from transparent or translucent material such as velum, acetate or tissue paper.

2. Adhere individual panes in place as shown.

3. Fold all panels of the Lantern body in the same direction. Fold the three tabs of the Lantern top in one direction.

4. Adhere each of the tabs of the Lantern top to the edges of the Lantern panels as shown.

5. Embellish as desired. Electric lights may be inserted into the Lantern through the slits on the top.

6. Lantern may also be illuminated with the point up by eliminating the Lantern top piece and using a battery-powered tea candle.
