

662787 Sizzix® Bigz™ L Die - Geometric Holder, Tall 3-D by Lynda Kanase

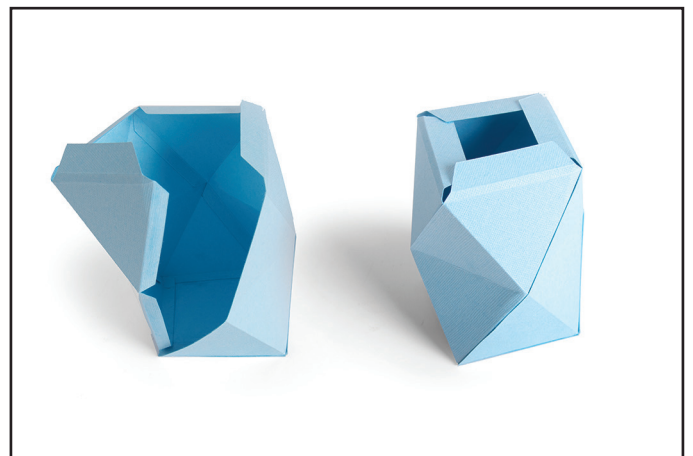

1. Die-cut four sides and a base out of desired material.

2. Fold the sides as shown, with the thin tab at the bottom and the thick tab at the top.

3. Adhere the thin tab of each of the sides to one of the edges of the base.

4. Adhere the sides together.

5. Fold the top tabs inward, creating a flat surface along the double crease lines, and adhere in place.
